

APPENDIX 1. LIST OF ACCESSIONS COLLECTED IN UZBEKISTAN AND KYRGYZSTAN IN 1999

COLLECTION OF *LACTUCA* AND RELATED SPECIES

Collect. nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 5	12.08.99	L1°(UZB)	W	480	Plants 40-80 cm. high, dry irrigation canal along roadside
NUK 13	12.08.99	L3(UZB)	W	710	Mixture of two species? , roadside among other weeds
NUK 15	13.08.99	L4°(UZB)	W	840	Plants up to 120 cm., roadside (mixture two species?)
NUK 23 ^a	13.08.99	L5(UZB)	W	1040	Plants 70-140 cm. high, roadside near irrigation canal
NUK 27	13.08.99	L6(UZB)	W	1340	Plants 70-120 cm., light yellow flowers, open place in forest (irrigation)
NUK 33	14.08.99	L8(UZB)	W	1370	Plants 70-100 cm., yellow flowers, roadside, <i>Lactuca</i> spp.?
NUK 34	15.08.99	L9(UZB)	W	1500	Plants 70-130 cm. high, light yellow flowers, roadside vegetation
NUK 35	15.08.99	L9(UZB)	W	1500	Plants 50-60 cm. high, light yellow flowers, dense bush vegetation
NUK 36	15.08.99	L10(UZB)	W	915	Plants up to 150 cm. high, large variation in population (mixture?)
NUK 37	15.08.99	L10 (UZB)	W	930	As NUK 34
NUK 39	15.08.99	L11(UZB)	W	1180	Plants up to 150 cm. high, roadside vegetation
NUK 40	15.08.99	L12(UZB)	W	1470	Along roadside and in gardens, near small river
NUK 45	16.08.99	L14(UZB)	W	1500	Plants up to 170 cm. high, large variation, growing roadside between stones
NUK 48	16.08.99	L14(UZB)	W	1540	Plants up to 180 cm. high, light yellow flowers, roadside and in grassland
NUK 51	16.08.99	L15(UZB)	W	1575	Plants up to 180 cm. high, growing between rocks
NUK 51 ^a	16.08.99	L15(UZB)	W	1625	As NUK 51, higher in the valley, near river
NUK 51 ^b	16.08.99	L15(UZB)	W	1750	As NUK 51, higher in the mountains between rocks
NUK 55	17.08.99	L16(UZB)	W	1680-1700	Plants up to 180 cm. high, large variation, near river between stones
NUK 59	17.08.99	L16(UZB)	W	1770	Plants up to 100 cm. high, between rocks in river valley
NUK 61	18.08.99	L17(UZB)	W	660	Plants up to 150 cm. high, along roadside, near fields
NUK 71	18.09.99	L18(UZB)	W	515	Plants up to 150 cm high, along roadside near fruitgarden
NUK 75	18.08.99	L21(UZB)	W	750	Plants up to 120 cm. high, as weed growing in wheat field
NUK 82	18.08.99	L22(UZB)	W	560	Growing along roadside
NUK 90	18.08.99	L24(UZB)	W	480	Plants up to 120 cm. high, roadside near irrigated fields
NUK 91	18.08.99	L25(UZB)	W	500	Plants up to 150 cm. high, along roadside
NUK 92	20.08.99	L26(UZB)	W	670	Plants up to 150 cm. high, near roadside
NUK 93	20.08.99	L27(UZB)	W	755	Plants up to 120 cm. high, near railways between stones
NUK 94	20.08.99	L28(KYR)	W	750	Plants up to 120 cm. high, roadside vegetation
NUK 96	20.08.99	L29(KYR)	W	975	Plants up to 140 cm. high, roadside vegetation
NUK 97	21.08.99	L30(KYR)	W	1140	Plants up to 150 cm., large variation, near sunflower field
NUK100	21.08.99	L30(KYR)	W	1140	Seeds more black and thicker than NUK 97

NUK104	21.08.99	L31(KYR)	W	1420	Plants up to 150 cm. high, growing in grasslands and sunflower field
NUK107	22.08.99	L33(KYR)	W	1720-1790	Plants up to 150 cm. high, open grassland vegetation, not common on this altitude
NUK116	22.08.99	L33(KYR)	W	1830	Plants up to 180 cm. high, very high altitude for wild lettuce
NUK123	24.08.99	L35(KYR)	W	1390	Plants up to 150 cm. high, along roadside and small gardens
NUK124	24.08.99	L36(KYR)	W	1260	Plants up to 150 cm. high, light yellow flowers, along roadside
NUK127	24.08.99	L37(KYR)	W	945	Plants up to 200 cm. high, roadside vegetation and in maize field
NUK128	24.08.99	L38(KYR)	W	780	Plants up to 120 cm. high, roadside and in fields
NUK129	24.08.99	L39(KYR)	W	1050	Plants up to 100 cm. high, along roadside
NUK130	25.08.99	L40(KYR)	W	1150	Plants up to 150 cm. high, in sunflower field
NUK131	25.08.99	L41(KYR)	W	965	Plants up to 100 cm. high, small flower, dark brown seeds, along roadside
NUK142	25.08.99	L43(KYR)	W	1000	Plants 70-80 cm. high, along roadside
NUK147	25.08.99	L45(KYR)	W	1135	Plants 70-80 cm. high, along roadside
NUK150	26.08.99	L45(KYR)	W	1220	Near wheat field
NUK155	26.08.99	L45°(KYR)	W	955	Plants up to 120 cm. high, roadside and in sunflower field
NUK161	26.08.99	L47(KYR)	W	835	Plants up to 120 cm. high, along roadside
NUK163	26.08.99	L48(KYR)	W	700	Not typical <i>seriolo</i> type, much branched, along roadside near cotton fields
NUK164	27.08.99	L49(KYR)	W	660	Flowers light yellow, roadside and near irrigation canal
NUK165	27.08.99	L50(KYR)	W	550	Roadside near cotton field
NUK166	27.08.99	L51(KYR)	W	690	Plants 100 cm. high, rather dry area
NUK169	27.08.99	L52(KYR)	W	890	Plants up to 150 cm. high, roadside vegetation between stones
NUK172	28.08.99	L53(KYR)	W	1100	Plants up to 140 cm. high, roadside and in natural grasslands
NUK173	28.08.99	L54(KYR)	W	1110	Plants up to 150 cm. high, roadside vegetation
NUK175	28.08.99	L55(KYR)	W	960	Plants up to 150 cm. high, light yellow flowers, roadside
NUK184°	30.08.99	L57(UZB)	W	700	Seeds of one wild lettuce plant in field with cultivated <i>L. sativa</i>
NUK186	30.08.99	L58(UZB)	W	540	Roadside near irrigated field
NUK187	30.08.99	L59(UZB)	W	510	Plants up to 100 cm high, small narrow pointed leaves, irrigation canal
NUK192	30.08.99	L61(UZB)	W	500	Plants up to 100 cm high, roadside vegetation
NUK195	30.08.99	L63(UZB)	W	510	Plants up to 70 cm. high, roadside vegetation

Collection of related *Lactuca* spp.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK109	22.08.99	L33(KYR)	W	1730	Unknown composite, large black seeds, plants up to 200 cm
NUK118	23.08.99	L34(KYR)	W	1440-1500	Along river, yellow flowers, up to 300 cm. ,large dark seeds
NUK174	28.08.99	L55(KYR)	W	960	Roadside, together with 175, plants 50-80 cm. high, branches, clear yellow flowers

*gambusia de
sta.*

COLLECTION OF *ALLIUM*.

A. Cultivated *Allium* species

Collection of *Allium cepa*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 80	18.08.99	L19(UZB)	L	700	Chust Market, local cultivated, large long white type
NUK 81	18.08.99	L19(UZB)	L	700	Chust Market, local orange/yellow type, medium large type
NUK 87	18.08.99	L23(UZB)	L	500	Namangan Market, local white long onion (c.15 cm)
NUK 178	29.08.99	L56(UZB)	L	600	Market Andizhan, local round white onion
NUK 190	30.08.99	L60(UZB)	B	520?	Market Margilan, var. from Tadjikistan, wintertype.

Collection of *Allium sativum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 2	12.08.99	L1 (UZB)	L	480	Tuzi Market, Tashkent, large white type, Ø 4-6 cm.
NUK 4	12.08.99	L1 (UZB)	L	480	Tuzi Market, cultivated in Tashkent district, white type with purple stripes, Ø 4-6 cm.
NUK 6	12.08.99	L2 (UZB)	L	475	Kujluk Market, Tashkent, white type with purple stripes, Ø 4-5 cm.
NUK 8	12.08.99	L2 (UZB)	L	475	Kujluk Market, Tashkent, large white type with some purple stripes, Ø 5-7 cm.
NUK 9	12.08.99	L2 (UZB)	L	475	Kujluk Market, Tashkent, somewhat smaller white type, Ø 4-6 cm, more purple as NUK 8
NUK 19	13.08.99	L4 (UZB)	L	1000	Angren Market, var. Maisky, small white type Ø 3,5-4,0 cm
NUK 20	13.08.99	L4 (UZB)	L	1000	Angren Market, small white type with some purple stripes
NUK 68	18.08.99	L18(UZB)	L	500	Market Pap, purple type (cultivated around Pap)
NUK 69	18.08.99	L18(UZB)	L	500	Market Pap, not local, Maisky type, cultivated in autumn, harvested winter
NUK 73	18.08.99	L19(UZB)	L	700	Market Chust, small white type, said to be local from Pap
NUK 76	18.08.99	L19(UZB)	L	700	Market Chust, large type, wintertype, cultivated in mountains N. of Chust (c. 1300 m)
NUK 138	25.08.99	L42(KYR)	L	970	Market Osh, small medium type, Ø 4-5 cm, white with purple stripes, wintertype
NUK 145	25.08.99	L44(KYR)	L	1000	Market Uzgen, large white yellow type, Ø 5-7cm, wintertype.
NUK 146	25.08.99	L44(KYR)	L	1000	Market Uzgen, medium small type, Ø 3-5 cm, many purple stripes, wintertype.
NUK 160	26.08.99	L46(KYR)	L	700	Market Dzalal Abad, type of Maisky, medium size, white with purple stripes
NUK 179	29.08.99	L56(UZB)	L	600	Market Andizhan, medium large type, purple stripes, local from Sinabad
NUK 180	29.08.99	L56(UZB)	L	600	Market Andizhan, small type with purple/red stripes
NUK 188	30.08.99	L60(UZB)	L	520	Market Margilan, from Tashlak village, small type, many purple stripes
NUK 189	30.08.99	L60(UZB)	L	520	Market Margilan, local, large Maisky type
NUK 193	30.08.99	L62(UZB)	L	520	Market Ristan, medium large bulbs with purple stripes, wintertype

B. Wild *Allium* species

Collection of *Allium aphlatunense*

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 57	17.08.99	L16(UZB)	W	1710	Very small onions, plants c. 20 cm. High, between rocks
NUK 120	23.08.99	L34 ^o (UZB)	W	1540	Small onions, plants up to 80 cm., growing under trees and scrubs

Collection of *Allium ceasium*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 30	14.08.99	L8 (UZB)	W	1310	Small head, seeds not ripe, old bulbs collected, growing between grasses and stones
NUK 115	22.08.99	L33(KYR)	W	1830	Small heads, somewhat purple, long narrow bulbs, up to 70 cm high, under trees

Collection of *Allium cerileum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 28	14.08.99	L7 (UZB)	W	1270	Long narrow bulbs (c.10 cm.), plants up to 60 cm, unripe seeds, hilly site, under scrubs
NUK 176	28.08.99	L55(KYR)	W	960	Long bulbs, small heads, plants up to 60 cm. unripe seeds, near roadside

Collection of *Allium drobovii*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 168	27.08.99	L51(KYR)	W	1700	Plants 40- 60 cm. high, medium large heads, small bulbs, between rocks and grasses

Collection of *Allium giganteum*

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 43	15.08.99	L12(UZB)	W	1600	Anzur type, large white onion, eaten by local population, 3 bulbs received, no seeds

Collection of *Allium longicuspis* (wild garlic)

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 26	13.08.99	L6 (UZB)	W	1300	In field near forest, plants up to 100 cm. high, violet flowers, only bulbils collected
NUK 50	16.08.99	L14(UZB)	W	1550	In natural grassland , plants 60 cm., violet flowers, only bulbils and two bulbs
NUK 102	21.08.99	L30(KYR)	W	1100	Up to 60 cm high, two small bulbs and not ripe heads with bulbils
NUK 151	26.08.99	L45(KYR)	W	1260	Growing in bush vegetation near wheat field, up to 100 cm high, bulbs and bulbils

Collection of *Allium regelii*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 52	16.08.99	L15(UZB)	W	1580-1650	Small head, somewhat purple bulb, growing under trees/scrubs between rocks

Collection of *Allium polyrizum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 24	13.08.99	L6 (UZB)	W	1350	Plants 50-70 cm., small heads, growing between grasses and scrubs
NUK 29	14.08.99	L7 (UZB)	W	1300	Rare, only one old bulb and few seeds, hilly site with stones, between scrubs

Collection of *Allium scabriscapum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 30°	14.08.99	L7 (UZB)	W	1310	Later type, young bulbs, unripe seed, growing between grasses and stones
NUK 58	17.08.99	L16(UZB)	W	1720	Rare, old bulbs and unripe seeds, growing between rocks, 20 m. above river
NUK 167	27.08.99	L51(KYR)	W	700	Plants up to 30 cm., very small inflorescence, few small bulbs, dry area with stones.

Collection of *Allium stipitatum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 111	22.08.99	L33(KYR)	W	1760	Large white bulbs, Ø 7-8 cm, plants up to 180 cm., under trees and scrubs
NUK 121	23.08.99	L34°(KYR)	W	1560	Anzur type, large white bulbs, Ø 5-6 cm, plants c. 1 m., large inflorescence, growing under trees and scrubs in forest

Collection of *Allium suvorovii*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 101	21.08.99	L30(KYR)	W	1100	70-1.20 m. high, large heads, one bulb collected, growing in the shadow on a hill

Collection of *Allium* spp. (not identified species)

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 31	14.08.99	L8 (UZB)	W	1320	Rare, only two heads with a few seeds, hilly site between scrubs and grasses
NUK 56	17.08.99	L16(UZB)	W	1730	Rare, no seeds, only 3 dried bulbs found, growing between rocks 40 m.above river
NUK 108	22.08.99	L33(KYR)	W	1750	Plants up to 80 cm. high, small heads, growing under walnut trees between grasses

COLLECTION OF *BRASSICA***Collection of *Brassica oleracea* group white cabbage**

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 89	18.08.99	L23(UZB)	L	500	Market Namangan, local cultivated
NUK 135	25.08.99	L42(KYR)	B?	970	Market Osh, said to be cultivated around Osh under the name Chustky
NUK 157	26.08.99	L46(KYR)	L	700	Market Dzhahal Abad, early local variety.
NUK 158	26.08.99	L46(KYR)	L	700	Market Dzhahal Abad, late local variety, more winter type
NUK 159	26.08.99	L46(KYR)	B	700	Market Dzhahal Abad, variety named Sudja, late variety
NUK 191	30.08.99	L60(UZB)	L	520	Market Margilan, local cultivated in Behabad village near Namangan
NUK 198	30.08.99	L64(UZB)	L	480	Market Kokand, local early type cultivated around Kokand

Collection of *Brassica rapa* group vegetable turnip

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 63	18.08.99	L63(UZB)	L	500	Market Pap, local grown yellow coloured turnip
NUK 67	18.08.99	L67(UZB)	L	500	Market Pap, local cultivated landrace
NUK133	25.08.99	L42(KYR)	L	970	Market Osh, local cultivated yellow type

Collection of *Raphanus sativus*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 66	18.08.99	L18(UZB)	L	500	Market Pap, winter type
NUK132	25.08.99	L42(KYR)	L	970	Market Osh, winter type

COLLECTIONS OF FRUIT-VEGETABLES**Collection of *Cucumis sativus*.**

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 10	12.08.99	L2 (UZB)	B	250-500	Tashkent Kujluk Market, Uzbek variety 740 (Tashkentkaye?), grown around Tashkent
NUK 12	12.08.99	L2 (UZB)	B	475	Tashkent Kujluk Market, Uzbek variety 640 (older variety).
NUK 22	13.08.99	L4 (UZB)	B	1000	Market Angren, Old Russian variety (Parade), canning type with disease resistances
NUK 23	13.08.99	L4 (UZB)	L	1000	Market Angren, local variety from Tashkent, fruits 10-15 cm.
NUK 65	18.08.99	L18(UZB)	L	500	Market of Pap, local around Pap, canning type
NUK 88	18.08.99	L23(UZB)	L	500	Market Namangan, probably local landrace, fruits up to 20 cm, smooth universal type
NUK136	25.08.99	L42(KYR)	B	970	Market Osh, var. Konkurent, small and smooth, universal type with disease resistances
NUK144	25.08.99	L44(KYR)	L	1060	Market Uzgen, local cultivated, smooth small type
NUK156	26.08.99	L46(KYR)	L	700	Market Dzhahal Abad, Russian variety, small smooth type for canning
NUK183	29.08.99	L56(UZB)	L	600	Market Andizhan, local cultivated around Andizhan
NUK194	30.08.99	L62(UZB)	L	520	Market Ristan, local of Fergana valley
NUK197	30.08.99	L64(UZB)	L	480	Market Kokand, local cultivated

Collection of *Lycopersicon esculentum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 79	18.08.99	L19(UZB)	B	700	Market Chust, Old Russian variety (Stalingrad), large round tomatoes.
NUK 86	18.08.99	L23(UZB)	L	560	Market Namangan, local type, tomato with pear form, canning type.
NUK181	29.08.99	L56(UZB)	B	600	Market Andizhan, probably old Russian variety(TM-2)
NUK199	30.08.99	L64(UZB)	B	480	Market Kokand, var. Uzbekistan (new variety)
NUK200	30.08.99	L64(UZB)	L	480	Market Kokand, local cultivated

Collection of *Capsicum annum*.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 1	12.08.99	L1 (UZB)	L	480	Tuzl market Tashkent, hot pepper, 10 fruits 5-7 cm, small red type, few green
NUK 3	12.08.99	L1 (UZB)	L	480	Tuzl market Tashkent, sweet pepper, 11 pointed red fruits 10-16 cm
NUK 7	12.08.99	L2 (UZB)	L	482	Kujluk market, hot pepper cultivated around Margilan, 10 fruits, red long type
NUK 11	12.08.99	L2 (UZB)	B	482	Kujluk market, Tashkent, sweet pepper, var. Dartashkenta
NUK 16	13.08.99	L4 (UZB)	L	1000	Market Angren, hot pepper from Ristan, 7 red pointed fruits with a hook, 12-14 cm
NUK 17	13.08.99	L4 (UZB)	L	1000	As NUK 16, hot pepper, 9 red pointed fruits but smaller (9,5-12 cm.)
NUK 18	13.08.99	L4 (UZB)	L	1000	As NUK 16, hot pepper, 6 red pointed fruits, rather short (6-9 cm.)
NUK 21	13.08.99	L4 (UZB)	L	1000	Market Angren, local from Karabagh, hot pepper, 9 red fruits (7-9 cm.)
NUK 70	18.08.99	L18(UZB)	L	500	Market Pap, sweet pepper, lot fruits with large variation (3-4 different types)
NUK 74	18.08.99	L19(UZB)	B	700	Market Chust, sweet pepper, Russian variety, common paprika fruits (5) but pointed
NUK 77	18.08.99	L19(UZB)	L	700	Market Chust, sweet pepper, local type, red long fruits
NUK 78	18.08.99	L19(UZB)	L	700	Market Chust, sweet pepper, local cultivated near Chust, red round type
NUK 83	18.08.99	L23(UZB)	L	500	Market Namangan, hot pepper, red very small type fruits 3-4 cm.
NUK 84	18.09.99	L23(UZB)	L	500	Market Namangan, sweet pepper, local around Namangan, round red type
NUK 85	18.09.99	L23(UZB)	L	500	Market Namangan, hot pepper, local around Namangan, medium long type
NUK137	25.09.99	L42(KYR)	L	970	Market Osh, hot pepper, local cultivated around Osh, red small fruits (7-8 cm.)
NUK139	25.09.99	L42(KYR)	L	970	Market Osh, hot pepper, local cultivated, medium long red fruits (8) of 9-11 cm.
NUK140	25.09.99	L42(KYR)	L	970	Market Osh, sweet pepper, long red fruits (5) of 12-15 cm, somewhat pointed fruits
NUK141	25.09.09	L42(KYR)	L	970	Market Osh, sweet pepper, smaller fruits (6) of 8-10 cm, less pointed fruits
NUK182	29.08.99	L56(UZB)	L	600	Market Andizhan, hot pepper, dried pepper power with some seeds

Collection of *Citrullus lanatus* (watermelon)

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 44	15.08.99	L13(UZB)	L	c.1150	Green type with red pulp, cultivated in North Fergana valley (around Pap or Chust)
NUK 54	15.08.99	L14(UZB)	L	?	Green type with red pulp, original from Kokand area
NUK 72	18.08.99	L20(UZB)	L	730	Bought near road, large green fruit with white stripes, red pulp
NUK162	26.08.99	L47(KYR)	L	835	Bought near road, green fruit with white stripes, red pulp
NUK177	28.08.99	L48(KYR)	L	700	Bought near Lenin Dzho, large green fruit with white stripes, red pulp
NUK185	30.08.99	L57(UZB)	L	700	Grown at Experimental Station at Dzalal-Kuduk, green fruit with red pulp

COLLECTIONS OF *DAUCUS*

Collection of *Daucus carota*. (cultivated)

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 62	18.08.99	L18(UZB)	L	500	Market Pap, local landrace, yellow coloured type
NUK 64	18.08.99	L18(UZB)	L	500	Market Pap, cultivated near Kokand, red coloured type
NUK134	25.08.99	L42(UZB)	L	970	Market Osh, yellow coloured type, 15-25 cm long.

Collection of *Daucus* spp. (wild)

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 14	12.08.99	L 3(UZB)	W	710	Roadside, along irrigation cannal between grasses and clovers, up to 100 cm.
NUK 38	15.08.99	L10(UZB)	W	915	Roadside, plants up to 80 cm.
NUK 95	20.08.99	L29(KYR)	W	975	Roadside vegetation, plants up to 125 cm.
NUK 98	21.08.99	L30(KYR)	W	1140	Along fields with crops, plants up to 150 cm.
NUK125	24.08.99	L36(KYR)	W	1260	Roadside, plants up to 160 cm., late population, only 15 plants with limited ripe seeds
NUK143	25.08.99	L43(KYR)	W	1000	Roadside and maize/sunflower fields, up to 100 cm.
NUK152	26.08.99	L45(KYR)	W	1250	Along wheat field and bush vegetation, plants up to 120 cm.
NUK170	27.08.99	L53(KYR)	W	1090	Roadside and in fields, up to 120 cm.

COLLECTIONS *TRIFOLIUM*

Collection of *Trifolium repens* (white clover)

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 25	13.08.99	L6 (UZB)	W	1340	Very small leaves, many seedheads and denseness under trees, much grazed
NUK 42	15.08.99	L12(UZB)	W	1470	Low creeping plants, small leaves and heads, reasonable seedset.
NUK 46	16.08.99	L14(UZB)	W	1500	Low creeper in bushy grassland, intensively grazed, sometimes irrigated.
NUK 105	21.08.99	L32(KYR)	W	1700	Low creeping type under trees and scrubs, many seedheads (reseeding ability)
NUK 106	22.08.99	L33(KYR)	W	1720	Small creeping plants in natural grassland under trees, partly irrigated
NUK 112	22.08.99	L33(KYR)	W	1770	As NUK 106, at higher altitudes.
NUK 113	22.08.99	L33(KYR)	W	1820	Very small creeping type (15 cm), growing in a dry irrigation canal.
NUK 117	23.08.99	L34(KYR)	W	1460	Small creeping type, partly growing under trees and grazed.

NUK 122	23.08.99	L34°(KYR)	W	1450 -1540	Low creeper (10-15 cm), commonly grazed and used for hay production.
NUK 153	26.08.99	L45(KYR)	W	1240	Small creeping type along roadside and on border wheat field

Collection of *Trifolium pratense* (red clover)

Collect.nr.	date	Locality	Pop-type	Altitude	Remarks
NUK 41	15.08.99	L12(UZB)	W	1470	Larger leaves and seedheads, up to 35 cm high, in maize field, poor seedsetting.
NUK 47	16.08.99	L14(UZB)	W	1500	Climbing up to 60-70 cm in natural grassland, grazed and used for hay production.
NUK 49	16.08.99	L14(UZB)	W	1540	Up to 70 cm, in natural grassland, dense population and grazed, seedsetting limited.
NUK 99	21.08.99	L30(KYR)	W	1120	Up to 40 cm high, growing in dense vegetation (shadow) mainly under maize..
NUK 99 ^a	21.08.99	L30(KYR)	W	1120	As NUK 99, growing in more open vegetation, better seedsetting.
NUK 103	21.08.99	L31(KYR)	W	1360	Up to 50 cm. high, growing in natural grassland with bush vegetation, some irrigation.
NUK 110	22.08.99	L33(KYR)	W	1790	Up to 30 cm. high, growing in natural grassland with scrubs, grazed
NUK 119	23.08.99	L34(KYR)	W	1420 -1540	Climbing up to 50-60 cm in natural grassland with scrubs, grazed and used for hay.
NUK 126	24.08.99	L36(KYR)	W	1260	Up to 50 cm, roadside between grasses and scrubs.
NUK 148	25.08.99	L45(KYR)	W	1135	30 to 50 cm high, roadside and in fields.
NUK 149	26.08.99	L45(KYR)	W	1220	Up to 40 cm high, growing on roadside and in wheat vegetation.
NUK 171	27.08.99	L53(KYR)	W	1100	Dominant growing in natural grasslands and along roadside

Collection of *Triticum* spp

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 32	14.08.99	L 8(UZB)	W	1430	Not identified wild <i>Triticum</i> spp., up to 50 cm high, along small road in a hill
NUK 114	22.08.99	L33(KYR)	L	1850	Landrace of <i>T aestivum</i> , real landrace including different (8-10) types

Collection of *Fritillaria* spp.

Collect.nr.	Date	Locality	Pop-type	Altitude	Remarks
NUK 53	16.08.99	L15(UZB)	W	1630	Small type up to 30 cm, <i>Tulipa</i> spp?
NUK 60	17.08.99	L16(UZB)	W	1720	Very small type, 2-3 capsules on stem, plants 20-30 cm. High, limited seeds

Total 203 accessions + 13

Explanation of used acronyms in Appendix 1.

NUK= Netherlands-Uzbek-Kirghiz Expedition 1999

UZB= collected in Uzbekistan

KYR=collected in Kyrgyzstan

Pop-type= Population type, divided in:

B= cultivar or variety

L= landrace or local/primitive cultivar

W= wild species or accession collected in wild vegetation

L1, L2, L3, etc. means number of collecting locality (see Table 1.)
