Dear Mr. Director,

LETTER OF AGREEMENT

between ECP/GR and INSTITUUT VOOR DE VEREDELING VAN TUINBOUWGEWASSEN

I am pleased to inform you that the ECP/GR has approved an allocation of US\$ 6.500 in support of the project for the collection, evaluation and storage of Allium species in the Netherlands.

I request you to confirm that you agree to carry out the project in accordance with your project application attached herewith. Please note that duplicates of the crops collected are to be deposited in the National Vegetable Research Station in Wellesbourne, UK.

You shall be required to certify to the Secretariat that the funds have been spent for the purposes indicated in the project application, and your financial statement should be itemized according to the budget headings indicated in the project application, together with explanations for any deviation from the original proposal.

In addition, a report and full details of samples collected must be completed and returned to the ECP/GR Secretariat within 3 months of the completion of the project. I would also draw your attention to the IBPGR standard collection form which should be used during the mission. This form will be sent to you soon.

Payment of the approved allocation shall be made as follows: 90% on signature of the Letter of Agreement; the balance on submission of the final report and the financial statement.

If you are in agreement with the foregoing, please so indicate by signing two copies of the Letter of Agreement and return them to the Secretariat.

Thank you for your cooperation with the ECP/GR project.

Yours sincerely,

Dr. G. de Bakker
Executive Secretary
ECP Genetic Resources Project
